

Digital Photo Conversion and Media Services

Preserve your photo collection by converting your paper photos to digital format. Your photos are filled with precious memories. Over time, photo quality can degrade from improper storage by turning yellow or getting wrinkled. Once imported into digital format, you can easily share them with friends and family. These images can be used to create personalized gifts and uploaded to any digital format player.

Precious Memories

Example of photo degradation from improper storage, wrinkles

Example of restored photo

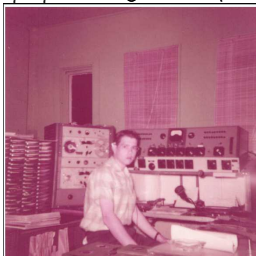

It's as EASY as 1-2-3

- STEP 1:** Send us your photos or arrange for local pick up
- STEP 2:** We will scan, crop & color correct your photos
- STEP 3:** We deliver your photos back and all images on CD-ROMs

Pricing:

300 dpi \$0.30 each up to 100 photos
 600 dpi \$0.50 each up to 100 photos
 Volume discounting available
